

Practice I

- **Title of the Practice: Student felicitation**

- **Goal:**

Following are the objectives of this practice:

- To encourage students for excellence
 - To create a sense of competitiveness among students
 - To facilitate multidimensional development of students

- **The context:**

Encouraging and applauding students for their achievements and other students for competitiveness have initiated this practice.

- **The practice:**

The college follows this practice to encourage the students whose performance is excellent in academic as well as extracurricular activities. The best students are chosen by a committee and they were felicitated in annual function along with their parents by the distinguished persons. This practice encourages competitiveness among students.

- **Evidence of success:**

Every year a committee constituted by college chooses best students whose performance in curricular co-curricular and extra- curricular activities is noteworthy. Five outstanding students are chosen and awarded with a certificate and memento and their parents were also felicitated.

- **Problem encountered and resource required:**

Choosing only five best students among thousand students is an uphill task.

- **Notes:**

The practice has encouraged the students' participation in curricular, co-curricular and extra- curricular activities for best performance and created a healthy competitive atmosphere among them.

Practice II

- **Title of the Practice: Placement Drive**
- **Goal:**
To facilitate employment generation
- **The Context:**
Most of the students financially poor, they need immediate employment , so the college organises the placement camp
- **The Practice:**
The college calls various companies and industrial units for providing employment to students
- **Evidences of Success:**
More than two hundred students were selected for various jobs.
- **Problems encountered and Resources Required:**
The pay scale of the companies
- **Notes:**
The college will introduce more value added courses to meet the expectations of companies.
